PRO FLEX II

Double coated polyurethane backing with nonsensitizing acrylic adhesive on both sides.

PRODUCT DESCRIPTION

Backing/ Carrier: 3 mil clear low density polyurethane film.

ADHESIVE:

Medical grade pressure sensitive acrylic on both sides.

LINER:

80 LB BLEACHED SUPERCALENDERED Kraft, silicone coated on both sides for differential release properties.

APPLICATIONS:

Mounting medical devices to skin
Electronic component assembly
Medical device assembly

FEATURES AND BENEFITS

Highly conformable polyethylene carrier for maximum patient comfort.
High performance medical grade adhesive on both sides provides maximum versatility.
Easily die cuttable into various sizes and shapes.

TEST DATA

Test	Typical Value	Test Method
Adhesive Thickness (AirS)	2.1 mils	Table
Adhesive Thickness (LinerS)	1.6 mils	Table
Carrier Thickness	3 mils	ASTM D1005-95
Adhesion Steel (AirS)	128 oz/in	PSTC 101A
Adhesion Steel (Liner S)	98 oz/in	PSTC 101A

BIOCOMPATABILITY:

The adhesive in this product has been tested on humans via Repeat Insult Patch Test, and did not induce irritation or allergic contact dermatitis in human subjects.
